

DOCTOR PATIENT LIST(linked list):

CODE:

```
import java.util.LinkedList;
```

```
public class DoctorPatientList {
```

```
    LinkedList<String> list = new LinkedList<>();
```

```
    DoctorPatientList() {
```

```
        list.add("Dr. Smith - Patient A");
```

```
        list.add("Dr. John - Patient B");
```

```
    }
```

```
    void display() {
```

```
        for (String s : list) {
```

```
            System.out.println(s);
```

```
        }
```

```
    }
```

```
}
```
