

UndoScheduleStack.java (Stack):

CODE:

```
import java.util.Stack;
```

```
public class UndoScheduleStack {
```

```
    Stack<String> stack = new Stack<>();
```

```
    UndoScheduleStack() {
```

```
        stack.push("Appointment Patient A");
```

```
        stack.push("Appointment Patient B");
```

```
    }
```

```
    void undo() {
```

```
        System.out.println("Undo: " + stack.pop());
```

```
    }
```

```
}
```
